Mom! There's an Astroid in My Closet!

- Minimum Area Venn Diagrams Whose Curves are Polyominoes
- Primes and Probability: The Hawkins Random Sieve
CONTENTS

ARTICLES
91  Minimum Area Venn Diagrams Whose Curves Are Polyominoes, by Stirling Chow and Frank Ruskey
104 Mom! There's an Astroid in My Closet! by Derek Seiple, Eugene Boman, and Richard Brazier
112 Primes and Probability: The Hawkins Random Sieve, by John Lorch and Giray Ökten

NOTES
120 For All Possible Distances Look to the Permutohedron, by Joe Santmyer
126 Finite Mimicry of Gödel's Incompleteness Theorem, by Paul Fjelstad
129 Digit Reversal Without Apology, by Lara Pudwell
133 A Quintile Rule for the Gini Coefficient, by Leon Gerber
135 A Short Proof of the Two-sidedness of Matrix Inverses, by Raymond A. Beauregard
136 Root Preserving Transformations of Polynomials, by Branko Ćurgus and Vania Mascioni
138 Do Cyclic Polygons Make the Cut? by Samuel Otten
142 Nonexistence of a Composition Law, by Şaban Alaca and Kenneth S. Williams

PROBLEMS
145 Proposals 1766–1770
146 Quickies 969–970
146 Solutions 1741–1745
151 Answers 969–970
